The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pilta composed of cheap, crude, and bulky ingredients when we can, by a careful application of chemical science, extract all the cathartic and other medical properties from the most valuable roots at cinal properties from the most variable roots and herbs, and concentrate them into a minute Gran-nic, searcely larger than a mustard seed, that can be readily swallowed by those of the most sensitive stomachs and institutions tastes.
